90 PER CENT OF TAX REPORT IS SOON DUE

County Residents Must Get Busy Soon, Says Commissioner Ben Powell

"There's going to be one of the greatest conglomerations of stamped, mixed up, irate and disgruntled farmers ever witnessed in the county within a short time," said County Tax Commissioner B. R. Powell, "if there is not about 90 per cent of them coming in here soon and making a report of what they have been taxed."

The official spoke like he meant business. He was agitated and somewhat irritated. He said such a situation was never, never before presented in this county, and he has been warning the rural residents for some time that they had better get in while the getting is good, for there will not be much time after this month, and, according to the manner in which they have been reporting their taxable property, there will be many left out in the cold.

When asked for an explanation of the apparent irritation and agitation, Mr. Powell reported thusly: "You see, there will have to be a report made of this property, and the time limit for making the returns is in November. The time to make these reports is from July until the time I stated, and while half the time has passed, there is not one-tenth of the reports in, although I have been goug- ing them up steadily."

Here the tax commissioner looked out the window, turned and pointing a finger at his interrogator, continued: "I know the farmers have been busy, but they have time now, a little time at least. They are holding off, and when the rush comes all will want to be first, and there will be some waiting, and something besides waiting for these reports must be completed by the first of the year, and they are going to be. While the weather might be pretty cold, some of these fellows are going to heat up about the collar band, and then they will be sorry, but it will avail them nothing. I have ordered them to come in and make reports, and if the persist in holding off, they will surely have to take what is coming."

MRS. HAGGARD'S STATEMENT

In connection with the killing of Ben Good at Winchester by her husband sent the Louisville papers the husband sent the Louisville paper the following statement:

"Gentlemen: Under date of Saturday, August 28, your papers carried in bold headlines a news statement from Winchester, Ky., in which the story was given the public that one Rodney Haggard, a young attorney of Winchester, had shot and killed Ben Good, a young man who lived here and belonged to a prominent family. That part of your story was true, and that was the extent of it."

"I hope that in publishing this, as you did that, you had no thought of doing others an injury, but you published in that same article the statement that it was because of jealousy and over Haggards' separation from his wife."

"The insinuation that this unfortunate affair was caused by some improper action on my part will not be permitted to stand against me. I am the wife of Mr. Haggard, and it is not in his defense that I write, but for the general public, for those who have read your front page story of the tragedy. I wish to make my statement, and demand that you give it headlines equally as large, space equally as prominent, and that there be no delay in its appearance in the paper."

"The facts are these. Mr. Ben Goode was a schoolmate of my sister. I knew him only through her, had seen him a number of times, and had only a friendly speaking acquaintance with him. So far as I have ever heard he was a well-behaved young man. He was employed in a clothing store on Main street, in Winchester, and I have been in that store and, of course, seen him there, but, in all earnestness, I do wish to state here that never in my life have I been guilty of thought or conduct that was improper so far as my relationship with my husband is concerned."

"Mr. Goode never did at any time in his life make the slightest im-

SMALLWOOD AND LAWSON ACQUITTED

Bradley Smallwood and Melvin Lawson, charged with the murder of Fred Fields, near Corbin, who, with Chester Phelps, against whom there was a similar charge, have been acquitted at Harrodsburg. Phelps was found guilty on circumstantial evidence, reports have it, and given a life term in prison. He denied his guilt, and in a letter to a friend in Richmond stated that he would go to prison an innocent man.

The trial of Phelps was held first and resulted in his being found guilty, and is said to have rendered the hearing of the other two young men different, in that they could not be found guilty of the same charge. It is claimed that Phelps had a revolver. All denied guilt. There was nothing more than circumstantial evidence against any of them. The men spent almost six months in the Madison county jail, where they were brought after their arrest for safe keeping. They are said to have been model prisoners, and are reported to have been sons of well-to-do parents in the vicinity where they resided. They were ex-service men. Phelps said he knew Fields, the murdered man. The body of the latter was found in a creek, it is claimed, after he had been murdered and robbed.

REWARD OFFERED FOR TWO FUGITIVES

County Judge W. K. Price has received information of a reward being offered by the state through Governor E. P. Morrow for the apprehension of one Buford Monday, colored, charged with having attacked Mrs. Charles Sowers, of Valley View, some time ago. The reward is \$250.

A reward of \$100 is also announced for the apprehension of Elbert Shanks, also colored, for the murder of John Hammond, L. & N. track foreman.

Both men escaped after the crimes, and while there have been reports of their having been one place and another, no tangible clew has been obtained. Hammond was killed by Shanks after the former had taken charge of some work north of the city of Richmond. While there were a number of other men employed on the track and in the immediate vicinity, little evidence as to the attack here:

"J. C. Chenault, of Abbott, brought the first bale of cotton of the season to West Point and sold it to J. M. Beley & company, H. E. Burrous, manager. Price paid was 40 cents a pound and the bale weighed 585. In addition to the money received for the cotton he will also get a premium of \$25 from the chamber of commerce. Mr. Chenault is a recent comer in this county. He is from Kentucky and purchased the Ivy place near Abbott. He is one of the best farmers in this county and gains in popularity as he becomes better known."

COUNTY AND FISCAL COURT

There will be a goodly number of cases to be heard at the regular session of the county court next Monday, Judge W. K. Price presiding.

The docket will represent the same routine in nature of cases. This will be followed by fiscal court on Tuesday, when there will be a number of matters of importance given attention.

FEW HUNT FOR SQUIRRELS

While there are said to be many squirrels in this section of the state this season, there are said to be few hunters than usual. The law, now open, it is not being taken advantage of, it is said, by nearly so many as usual in previous years.

LEE CONGLETON MOVES TO NEW COUNTRY HOME

Lee Congleton, who some time ago purchased a farm in Fayette county, is busily engaged these days moving his household goods from Richmond. The new Congleton home is said to represent one of the most elegant and modern country residences to be found in this part of the state. There are 18 rooms in the brick structure which are provided with every modern convenience. Mr. Congleton admits he is leaving Richmond very reluctantly, although he is anxious to get into his new home. His furniture is also being placed in the new home, which will be especially arranged for the family, this being one of the things looked after in the building.

REPUBLICAN FUND; ITS SOURCE AND USES

Upham Tells Interesting Facts Before Senate Committee—But Little Remains

(By Associated Press)

Chicago, Aug. 31—The Republican National Committee received \$1,017,000 in contributions between June 14 and August 26, Fred W. Upham, republican national treasurer, told the Senate committee investigating the campaign expenditures today.

He said \$618,000 were for national and \$399,000 were for state purposes. There were 12,589 persons contributed and he said the committee had planned to spend \$3,079,000, and presented a list showing the amount collected from each state.

New York lead with a quarter million dollars; Ohio followed with \$190,000, and it ranged down to \$2,000 in Georgia. Eleven states failed to raise money to care for their expenses, and included Kentucky, where the National Committee sent \$17,900. He said the committee now had only \$155,000 on hand.

Upham denied under oath that he had ever seen or heard of or ordered made up a list of the republican campaign funds, assigned to various cities and totaling \$8,000,000, as charged by Governor Cox in speeches at Pittsburgh.

He said: "The first time I ever saw the list was in the newspapers the day after the Cox speech. Furthermore, no one in my office made up such a list with my knowledge or consent."

Upham, however, added \$700,000 to Chairman Hayes' republican campaign chest figures, when he revealed that the senatorial and congressional campaign committees are to raise independent funds.

MADISON BOY SELLS FIRST COTTON BALE

The West Point, Miss., Daily Times had the following which will be of much interest to friends of the popular young man mentioned "back home" here:

"J. C. Chenault, of Abbott, brought the first bale of cotton of the season to West Point and sold it to J. M. Beley & company, H. E. Burrous, manager. Price paid was 40 cents a pound and the bale weighed 585. In addition to the money received for the cotton he will also get a premium of \$25 from the chamber of commerce. Mr. Chenault is a recent comer in this county. He is from Kentucky and purchased the Ivy place near Abbott. He is one of the best farmers in this county and gains in popularity as he becomes better known."

Athletics To Be Given Special Attention Soon

That there will be some early fall sports at Eastern Normal there is no question, since the grounds are being put in good condition and by the opening of the regular term there will be no finer grounds to be found.

The summer months have passed without any activity there but the fall months promise to make up for it, since athletics are said to be one of the additional lines to be enlarged upon and this work will be taken up at the opening of school and maintained out of doors until the arrival of cold weather.

TO THE DEMOCRATS OF MADISON COUNTY

A very short time since I was on the plantation of my son in Mississippi. On August 10 I became obsessed of the idea that I should return home and take part with my fellow citizens in the present campaign. My surroundings were so very agreeable and pleasant that I did not wish to break off or interfere with my plans, but I was unable to divert myself from the conviction that I should come. On August 11 I found myself homeward bound.

On my arrival here on the 12th I was both puzzled and pleased to learn that quite a number of you were wishing my return and were planning, or at least considering, work for me that had never crossed my mind.

I was flattered to know that my friends had thought of me in my absence and wished my return, so that I might assume the duties of campaign chairman for the Democratic party in Madison county. I felt my inability to direct the campaign with the vigor and intelligence with which it should be conducted, but I did not have the spirit to refuse to attempt to fill any position assigned me by the democracy of my county. With a deep conviction of my limitations, but encouraged with the support I would receive, I consented to perform the work assigned to me. I knew I would have the loyal support and assistance of as good men and women as ever enlisted for any cause, and I hope for divine guidance in the great work now before us.

I hope during the coming week to be able to arrange all of the various committees who will be the chief instruments in accomplishing the work soon to be performed. I had hoped for volunteers, as I did when my country called on me to be chairman of the War Savings campaign to sell war stamps. In that drive as true and loyal men and women came voluntarily to my assistance as ever enlisted in any cause, and I must say they came from all the walks of life, regardless of nationality or party affiliations, and all of our people showed themselves patriots.

I hope to see the same spirit in this campaign, and I am glad to state that it has already begun to develop. Patriotism and devotion to our great republic and its relations to other peoples of the earth will be discussed and listened to with greater eagerness than ever before by the people. The spirit of justice and the desire to do the right thing in the coming election is apparent in most of our people, regardless of former party affiliations.

It is certainly gratifying to feel that in this campaign many of the old prejudices have been removed and that party name has lost its charm and that all the people want to take a hand and finally act from convictions of right on the absorbing issue before the American people.

I, therefore, appeal to the democracy of Madison county who have recommended me to preside over their deliberations during the present campaign to give me their hearty support in the great work before us.

This expect and for a moment do not doubt I will receive. Headquarters for this work have been established in the McKee building, corner of First and Main streets. I want all true patriots to feel that they will be welcome in these quarters.

A League of Peace already exists—many of our citizens prefer to act at once with the present league. Others will not act with this, but pretend they want another league and a separate peace. It is a great question for settlement that has unexpectedly been placed in the hands of the people and voters of this republic. I believe the voters everywhere will be guided by convictions of right, as they shall answer to God.

The great idea in the hearts of the people given life and form by the combined efforts of many nations of the earth, and now working for "peace on earth and good will toward men," was born of God as He broadened over the hearts and minds of a disturbed and distressed world, and we confidently believe that no man or set of men under any flattering party name can divert that mind and cause a free and thinking people to join in the destruction of a glorious work already begun.

The Christian world has been moved to do a greater work than ever before. The present league has opened the way for barriers of the gospel to the hungry nations for righteousness. Must we delay these messengers until another league be formed, or will we say go now and declare the tidings of salvation?

I promise you, my friends, to give

TOBACCO MOVEMENT STARTS HERE SOON

Farmers Ask Good Roads Especially To Lexington, In Order To Move Product

(By Associated Press)

Farmers are becoming apprehensive concerning the moving of their tobacco, as a result of the condition of some of the roads of the county, it is reported, the Lexington pike, especially, and they have been informed that this extensively used thoroughfare is to receive additional attention at the hands of the county road engineer and working force in the near future.

The pike from Richmond to the Clark county line is one of the chief entrances to the city and egresses therefrom and in the near future the tobacco will begin to move and it is for the accommodation of the producers that County Road Engineer Baxter contemplates adding an impetus to the working force and hurrying the improvement work. It is said the county stone crusher will soon be doing good work in the vicinity of Foxtown and beyond in order to render that part of the highway more adaptable for hauling. Some of the rural residents claim they go to Lexington from Richmond by way of Valley View and Boonesboro, instead of taking the Lexington road, although the distance is much greater.

There has been a great amount of road improvement work accomplished during the first half of the present year, and it is the intention to continue the work until cold weather, and this road is one that will receive special attention. It is presumed the tobacco sales will be started about the first of December, as usual.

FINE TOBACCO BARNS

J. W. Creech is having constructed on the old ball park one of the finest tobacco barns in the county, within the confines of the city, and the new structure is attracting the attention and envy of many. It will be 80x125 feet and elegantly built and finished.

Mr. Creech has taken pride in the manner in which this building is to be constructed and is said to have a capacity sufficient to accommodate more than 20 acres of the weed.

This is one of the numerous new barns being built for tobacco in Madison county this year. The high price matters not. It is getting the material and having the building put up. In some localities it is possible to count as many as eight new barns going up. The construction work, however, has been hampered by the lack of material and delay of material. However, there has been a good showing made and the building has not been finished for the year by far.

The new machine for making asphalt has been tested and is said to have operated very satisfactorily. The application of this, the finishing layer for the streets, will perhaps be laid on Lancaster avenue not later than Thursday of this week.

to this great work my time and thought, my heart is in it, because I confidently believe it is time and labor given for Christianity, humanity and for betterment of the world.

I, therefore, have no hesitancy in appealing to all of our citizens to help us. If your former affiliations deter you from openly acting with us, come as did Nicodemus, at night, and we will reason together over this great issue.

May the League of Nations now at work continue to live, shall be my hope, and that we may soon sit with

will be my prayer during all my work assigned me by you.

NINE KILLED IN RIOTS IN BELFAST

(By Associated Press)
Belfast, Ireland, August 31.—Nine persons are dead as the result of yesterday's rioting here. Revised lists show 20 killed since the rioting began Wednesday. Troops now occupy virtually all police barracks.

Ominous signs of trouble were ushered in today. Never in the history of Belfast were disorders such as yesterday's. Mobs fought with wild fury in different sections; girls fought like wild cats; Unionist women charged a number of Nationalist girls in Cork street, while feminine Nationalists attacked the Unionist sisters in the Falls Road district.

MORE FEDERAL AID NEEDED, SAYS HARDING

Marion, Ohio, August 31.—More federal aid in reclaiming the nation's natural resources, particularly in the west, was advocated by Senator Harding today in an address here to a group of republicans.

He pictured the west holding many undeveloped possibilities and suggested in the present period of food shortage that former service men might be furnished homes on western lands.

'BIG FIVE' PLANNING TO SELL STOCKYARDS

(By Associated Press)
Washington, August 31.—Plans of the "Big Five" meat packers to dispose of their stock yard interests, as required under a recent court decree contemplate the sale of such interest in 15 cities to F. H. Prince and company, of Boston.

Plans were filed in the District of Columbia supreme court today, placing the book value of stock to be disposed of at between \$30,000,000 and \$40,000,000. If the plans are approved Prince will organize a holding company.

OFFICES OF EASTERN NORMAL BEING PAINTED

The business offices at Eastern Normal are being painted and in the meantime the work is being done in the office of President T. J. Coates. The work will require several days, after which the headquarters will be moved back. This improvement will add considerably to the appearance of the headquarters of the routine clerks who, together with Business Manager Gentry, make up the working force. This improvement will be followed by others in the near future to be finished before the opening of the school.

A Traveling Man's Experience
You may learn something from the
following by W. H. Ireland, a traveling
salesman, of Louisville, Ky.: "In
the summer of 1888 I had a severe at-
tack of cholera morbus. I gave the hotel
porter 50 cents and told him to buy me a bottle of Chamberlain's
Colic and Diarrhoea Remedy and to
take no substitute. I took a double
dose of it according to directions and
went to sleep. At five o'clock the next
morning I was called by my order and
took a train for my next stopping
place, a well man."

Chief of Police S. F. Jenkins, of
Athens, Ga., was shot and killed by a
deputy sheriff when he got into an
altercation with the deputy over a
moonshine prisoner.

Texas City, Tex.—In an inter-
statement, Mrs. G. H. Schill, of this town,
says: "For three years I suffered untold
agony with my head. I was unable to
do any of my work.

I just wanted to sleep all the time, for
that was the only ease I could get, when
I was asleep. I became a nervous wreck
just from the awful suffering with my
head."

I was so nervous that the least noise
would make me jump out of my bed. I
had no energy, and was unable to do
anything. My son, a young boy, had to
do all my household duties.

I was not able to do anything until I
took Cardui. I took three bottles in all,
and it surely cured me of those awful
headaches. That has been three years
ago, and I know the cure is permanent,
for I have never had any headache since
taking Cardui...

Nothing relieved me until I took Cardui.
It did wonders for me."

A GREAT REMEDY

The merits of Chamberlain's Colic and Diarrhoea Remedy are well known and appreciated, but there is occasionally a man who has no acquaintance with them and should read the following by F. H. Dear, a hotel man at Dupuyer, Mont., "Four years ago I used Chamberlain's Colic and Diarrhoea Remedy with such wonderful results that I have since recommended it to my friends."

REDUCED RATES FOR LEGION MEN

10,000 Women In Kentucky Eligible To Membership and Measure Will Be Taken Up

Reports have been issued to the effect that delegates and alternates to the American Legion convention at Louisville next month will be given reduced rates, about one and one-third fare for the round trip being the estimated price. There is expected to be the largest attendance and gathering of ex-service men in Louisville since the close of the war at this meeting. There will be much business of importance and arrangements are being made for their entertainment. There will be an interesting and entertaining program arranged.

The establishment and promotion of the Woman's Auxiliary will be one of the features of the meeting. It is estimated that there are more than 10,000 women in Kentucky eligible to membership. It is known that there are many in Madison county and this phase of the future work will be one of the features to be taken up and given serious consideration at the next meeting of the local post. The matter was brought up recently, but was passed to the next meeting as a result of other pressing business. The members of the local post are arranging for a series of entertainments and events to be held during the fall and winter months that bid fair to create a fund sufficient to assure the new home contemplated. The carnival now on is but one of the big list of important affairs to furnish entertainment in Richmond during the coming months. It is the intention to interest the women in the movement, and they will be recognized officially as soon as the measure is taken up and acted upon.

Teachers Meeting Saturday

The regular monthly meeting of the county schools will be held Saturday at the court house and plans are being made for a most interesting meeting. Rufus Click, teacher at the Dozier school near Red House, will have charge of the meeting and an interesting and entertaining program is being arranged.

STATE FAIR PRIZES TO BE ELABORATE

Noted Judges To Pass On Most Famous Horses Ever Exhibited There

Not only is the \$10,000 saddle horse stake at the Kentucky State Fair, the international event to determine the world champion in the show ring, but this year the misnamed \$10,000 will be the richest show horse stake in existence. The cash prizes will exceed \$20,000 and cups and trophies will make the aggregate awards valued in excess of \$25,000. The \$10,000 stake is divided into four parts; the \$2,500 as first prize is the Watterson stake for stallions; \$2,500 as first prize in the Louisville Old Inn stake for mares and \$2,500 as first prize in the Tyler stake for geldings. The first three horses in each of these stakes then will contest in the finals Saturday night of the State Fair week for the world championship, carrying a cash prize of \$2,500 and a handsome cup.

Fifteen thousand dollars in money and cups will be awarded in the minor events at the horse show, first, second and third prizes and to special features such as the best woman rider and to soldier contestants. Unlike past years, when one judge determined the crowning of the champion, three judges will decide on the points of the winning horse in the finals.

The judges this year are C. L. Pemberton, Elizabethtown; H. S. Caywood of North Middletown; C. V. Robertson, Hardinsburg, and J. Miller Ward, Paris. Although Richelieu King, winner three successive times in the Watterson stakes will not be entered this year, three horses that were second to him in 1917, 1918 and 1919 will compete in the ring this year. They are Highland's Choice, Admiral King and the Nobleman. A new comer in the prize ring that is entered in the Watterson stake is Roseland King, a product of Bourbon King and Kate Hamilton. In the Louisville Old Inn stake, John P. Crozier, owner of Liberty Girl, winner of the grand championship last year, has entered Golden Firefly and Catherine Haynes, two show ring celebrities. Lady Beautiful, entered in the Louisville Old Inn by Fair Acre Farms will be ridden by W. G. Shropshire, who piloted Hazel Dawn to victory in this stake.

Hot Days Derange Best of Stomachs

Use Dr. Caldwell's Syrup Pepain for quick relief from stomach troubles. Let children try it!

It is fascinating to growing girls to nibble at candy and accept invitations for sodas and ices, but in hot weather it is apt to destroy appetite for more wholesome food and leave the stomach deranged.

It is of utmost importance to see that the girl has a daily elimination. At the first sign of indigestion, indigestion, she had breath, you will know she has constipation. Do not wait for nature to adjust itself but give a teaspoonful of Dr. Caldwell's Syrup Pepain and the symptoms will soon disappear. Syrup Pepain is a combination of simple laxative herbs with Pepain, and a bottle can be bought at any drug store. It is mild and gentle in action and does not gripe. The taste, too, is very agreeable.

Thousands of mothers will not give children anything else, and many return to Dr. Caldwell's Syrup Pepain. It will stay on the stomach. That was the experience of Mrs. Fillan of 489 N. Main

FREE Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepain. 8 million bottles were bought at drug stores last year, the largest sale in the world.

COUNTRY STORE OF TODAY

The country store of yesterday, where our fathers and grandfathers gathered of an evening to toast their toes around the stove and settle the affairs of the nation, finds itself, today with some pretty serious problems to face. Good roads and the automobile have stimulated a tendency on the part of the country people to go to the city to trade even for the purchase of small articles that used to be bought only of the nearest store at the crossroads. And the country store is confronted with the necessity of overcoming this town trade tendency if it is to do a worth-while business.

For one thing the country store has always done a considerable even- ing business; because its customers could not conveniently get away from their farms during the daytime, or because they liked to meet each other there when evening allowed a little leisure, it has always been the custom for the rural store to stay open at night until the last customer was ready to leave. Now it has long been known that one of the first principles of retail merchandising is displaying goods where they can be easily and favorably seen. But in the old days this was a rather difficult thing, because light at night was only

furnished by one or two coal oil lamps hung over the counters.

Today a transformation is taking place. The small electric light and power plants which have come into such general use on farms throughout the country are serving the country store, too. Counters, show cases and show windows are brightly lighted. For the first time goods are really displayed. This brightening by light has brought brightening by other means, such as new fixtures and newly-painted woodwork. And the result is that the people of the surrounding community are doing the natural thing—buying well displayed goods at an attractive store near their home.

Where electricity has come to serve the rural store the trade-in-town tendency is not worrying the storekeeper to any great extent. He has found the solution to his trade problem.

QUIETUE FOLLOWS TRAGEDY AT IRVINE

KENTUCKY RACERS START TO ENTER TEST

POST IS IN FOR PROGRESSIVENESS

Irvine is said to have settled down to a period of unusual quietude since the tragedy of two weeks ago in which two men were killed and two others badly wounded, there having been no arrests there as a result of illicit whisky operations for some time. The detectives at the L. and N. railway yards in the vicinity of Ravenna have also tightened their vigilance in an effort to prevent the importation of liquor by anyone.

The continued improvement of George Estes, confined at the P. A. C. Infirmary, bids fair to terminate in his ultimate recovery at which time authorities will complete the investigation which has been hindered by his precarious condition. Rumors of various nature continue to emanate from here and there alike, however, the statements of two men, Estes and Detective Joe Spivy, will be productive of testimony from the only living participants. This will be taken up when the condition of Estes warrants.

Legion Is Successful In Mitigating Distresses

New York, Aug. 28 — The American Legion is making an effort to mitigate a distressing phase of the aftermath of the war—the 2,000 personal mysteries of the great struggle of men who are classified in army and navy lists as "missing in action," "killed in battle," and "presumably dead."

Wm. Woodard, who is conditioning five thoroughbred racing horses for the three hundred mile endurance race to be run in October from Ft. Ethan Allen, Vt., to Camp Devens, Mass., has left Boonesboro for Putney, Vt., with his charges. The horses under his care are David Craig, U-23, Moscowa, Helmet and Majella.

"If ever race horse were thoroughly fitted for a grueling test of stamina, these five are," said Woodard, "and I look for them to win the big race without much trouble. They will meet horses of all types and nations, but in my opinion the Kentucky thoroughbreds will show them the value of blue blood. I have been training them all summer around Boonesboro, where there are plenty of hills, and the quintet stood the gaff remarkably well. The veteran Helmet, sire of numerous winners on the American turf today, acts like a 2 year old, and I am placing a lot of dependence on him. The conditions of the race call for the horses to cover sixty miles a day, and I am not worrying a bit but what those I am training can accomplish the feat easily."

The five racers which Woodard is taking east are the property of the Kentucky State Racing Commission, Thorobred Horse Association and Kentucky Jockey Club. The Thorobred Horse Association through the efforts of President Thomas C. McDowell and Secretary Tom Cromwell, is responsible for the blue grass state having representation in the endurance contest and this organization has spent quite a bit of money in an effort to get horses worthy to uphold the name of this state against foreign rivals.

R. Bradley tendered the use of Helmet in the race, and he has announced that he will give Trainer Woodard a fee of \$5,000 if this horse wins.

IMPORTANCE OF THE BOYS AND GIRLS

Illustrated In Permits Issued For Special Service — Farmers Co-operate

According to the number of permits being issued by Truant Officer Paris B. Akin, there will be scores of boys and girls assisting with the cutting and taking in of the tobacco crop. The new law permitting of participation upon the part of the youngsters during the course of the school term, when permission is gained, is being taken advantage of by many, and this is what it is created for, so that the producers of tobacco in these times of lack of labor and high prices to realize every possible advantage when his livelihood is concerned. The applications continue to come in and are being granted. There is an unusual scarcity of labor, even at this season of the year. It was believed when the wheat harvest came to a close there would be plenty of "hands." This theory was strengthened by the laying off of thousands of young men who had gone to the factories in the cities, lured by the promise of high wages. Scores of them have returned, which partly illustrates the immensity of the acreage devoted this year to tobacco. The permits will continue to be issued where the are found to be bona fide, and as a result there will be no suffering upon the part of the tobacco, it is said, since in some neighborhoods the farmers are co-operating to such an extent that they will go to the fields of their neighbors and assist where the tobacco is ready to cut, thus insuring it against possible frost.

Later that neighbor who was assisted will lend his efforts to the interest of the donor, hence the saving of the tobacco crop at this critical period.

JUST EXCAVATING AGAIN

A leak in the water main recently laid on Main street was discovered Tuesday morning between First and Second streets and another excavation, about the "eleventh," one man stated, was necessary. It will be remedied soon, however, and the placing of concrete will not be interfered with.

An Old Fault Finder

An irritable and fault-finding disposition is often caused by indigestion. A man with good digestion and bowels that act regularly is usually good natured. When troubled with indigestion or constipation take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels, aug-
